

Muzzano, 22nd of April 2016

This Set of Geo Nicoll Flanged of 1925

The set came from the USA and it has been fully restored from myself in my workshop with great care.

The origina shafts are still in place ..

The set of heads were in pristine conditions and presented very little use.

The shafts have received 30 layers of natural shellac using the old French Polish technic.

Repairing old clubs is an art gone missing. Bringing back to playing condition such a great set was a pleasure and see them out on the golf course it is a dream come true.

Playing the old game of golf with historical Hickory Clubs is a privilege and I do wish you great fun with them and a lot of good moments with your hickory friends.

Paolo Quirici

Club Fitter & Passionate hickory golfer

Hickory World Champion 2013, US Professional Champion 2013 and 2014
