Muzzano, 10th of February 2022

Owner of this rare Set of Stewart RTJ dated 1926

The set has been fully restored from myself in my workshop with great care.

It has the original shafts and has new brown tacky calf leather grips from England.

The set of heads are in pristine conditions and presented very little use.

The shafts have received 30 layers of natural shellac using the French Polish technique.

In the set there is as well the RTJ putter with the inspection dot.

All clubs are restored and ready to play.

Repairing old clubs is an art gone missing. Bringing back to playing condition such a rare great set was a pleasure and see them out on the golf course it is a dream come true.

Playing the old game of golf with historical Hickory Clubs is a privilege and I do wish you great fun with them and a lot of good moments with your hickory friends.

Paolo Quirici, Club Fitter & Passionate hickory golfer

Hickory World Champion 2013, US Professional Champion 2013 and 2014
